

MISSION STATEMENT Park Falls School District

The children of the Park Falls School District will be provided the opportunity to receive a quality education.

To that end we will continually improve and provide curriculum and instruction that will encourage each student to become increasingly aware of their individual potential. Our united values include creating a curiosity and desire to learn, encouraging moral decency and emphasizing a strong sense of personal responsibility for themselves and thoughtfulness for others.

This mission will encourage a shared responsibility of community, board, administration, faculty, students and parents.
